DOCOMOTION
A Novidea Company

REDEFINING DOCUMENT GENERATION FOR INSURANCE

Docomotion is an advanced document generation application that offers intuitive, easy-to-use tools for designing and generating complex documents tailored to the business needs of insurance organizations.

By leveraging Docomotion's powerful capabilities, insurance organizations can dramatically improve operational efficiency, minimize errors, and enhance customer experience. From streamlining policy creation to automating regulatory compliance, Docomotion empowers insurers to focus on what matters most - serving their clients with speed and precision.

Tailored Solutions for Insurance Document Complexity

Tailor-made to address complex data models, sections, and dynamic nested tables.

A proven solution to meet Lloyd's Blueprint Two strategy (MRC & CDR).

Incorporates standard London-market wordings and clauses.

A comprehensive solution to digitize the management and generation of essential business documents, including MRC, quotes, coverslips, and declarations.

"

Docomotion is a company that really understands the pain points of the insurance industry, offering a document generation solution that makes our job much easier. Complicated document requirements have become simple to achieve, thanks to Docomotion. In some areas we've managed to reduce the number of templates from 150 to only 20 "smart" templates, which has been a real game changer

"

Powerful Capabilities at Your Fingertips

- **Multiple Formats:** Generate Documents in Word, PDF, HTML, and Mail Body Formats.
- **Interactive documents:** Ability to gather data and utilize multi-step e-signature
- **Mass Generation:** Create documents in bulk to multiple recipients, such as renewal letters, periodical statements, and more.
- **Automation Capabilities:** Automate document generation processes to streamline your business processes and reduce human error.
- **Dynamic Word:** Maintain a live and current Word document that automatically pulls real-time data from Novidea Customer Management.

Precision-Crafted Insurance Document Generation

Experience pixel-perfect creation of essential insurance documents such as the Market Reform Contract (MRC), Insurance Policies, Certificates of Insurance, Claim Endorsements, and more. Ensure your documents include all necessary content like sections, limits, premiums, schedules, and carrier information with impeccable accuracy.

Seamless Clause Management

Effortlessly embed both standard and bespoke clauses anywhere within your documents, maintaining perfect text formatting and styling, including clauses managed in Salesforce RTA fields. Sort the clauses to match the specific order requirements of your business documents.

Dynamic Clauses with Novidea Integration

Utilize Docomotion templates to craft dynamic, customized clauses that incorporate client data. Display data according to your unique business logic, ensuring every document is tailored to meet your needs.
